Will Americans Be More Tender With Their Money Than Lives of Their Sons

Washington, D. C.—A blunt challenge—whether Americans will be more tender with their money than with the lives of their sons — confronts U. S. citizens as they prepare to meet the appeal of the government to put an additional 13 billion dollars into the fight in the next three weeks.

American dollars which run off to some cozy shelter to hide while American boys are dying to defend our cities and towns from destruction and invasion will face a rising tide of resentment from all classes of patriotic citizens to come out and fight.

Millions of workers who now are buying War Bonds regularly out of current income must lend extra money to their government during the Second War Loan campaign (which started April 12).

In recognition of the spirit of sacrifice which is sweeping over the land as our troops swing into offensive action in Africa and await the signal for a landing in Europe, the Treasury Department is offering a series of government bonds to fit every pocketbook.

No matter whether Americans buy the familiar Series E Bonds or 2½ per cent bonds or 2 per cent bonds or tax certificates, they will be doing their part to make the Second War Loan drive a success.

Consumer Spending Too High.

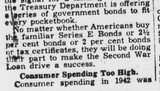
Consumer spending in 1942 was much too high to meet the war situation of 1943. Last year more than 82 billion dollars of our soaring national income went to feed the desires of Americans for clothes, recreation, foods and luxuries. As these items grow scarcer, more of our income must be diverted from such expenses into government bonds.

During 1942 millions of our fathers, sons, relatives and friends were in training here and abroad. Some were already in action. Casualties were beginning to bite into every community. War Bonds became a vital link between the home and fighting fronts.

Today sacrifice has become a way of life for America's fighting men. Civilian spending on the 1942 scale must go out the window if the home folks are to attempt to match the heroism of our boys at the front.

Not every American can take his place in a bomber or in a foxhole or on a fighting ship but he can fire away at the enemy by lending money to the government.

JOIN THE ATTACK ON TOKYO, . . . YOURSELF!



Every person in America may not fly over Tokyo, but every one's dollars can help produce the bombing planes that do!

You, you, you, can join the attacks on Tokyo by saving at least 10% of your pay in War Bonds—by joining your company's pay-roll savings plan today or going to your local bank or post office and buying War Savings Bonds—at least 10% of your pay—every pay day.

Remember you can start buying War Bonds by buying War Stamps for as little as 10c and that you get a $25 War Bond (maturity value) for only $18.75.

"Backyard Battlefield"

RIGHT in your own backyard, in your Victory Garden, you can help to forge a weapon mighty as a tank! Food is a weapon of freedom. It will help to win the war and write the peace.

Every day more and more American foodstuffs have to be transported to our fighting men and our Allies. "The Nazis have overrun and pillaged Russia's fertile granary in the Ukraine . . . They stripped North Africa bare . . . Japanese hordes have burned and blasted the "good earth" of valiant China . . . England has already increased her tillable acreage fifty per cent, and plans to increase it another ten per cent this year. But even that is not enough to feed the brave people of the "tight little island", who fought off our foes single-handed in 1941. And there are our own millions of war workers who must be fed.

American farmers and processing plants must produce vast amounts of food this year. And most of it must be transported by rail. The war traffic load of the railroads is increasing every day. So every way in which you can ease the burden means more equipment to move our men and munitions of war. Every pound of foodstuffs that you produce means one less pound that has to be transported to you . . . and another pound that can be carried to our own fighting men and fighting Allies on the battlefronts of the world.

Turn your backyard into a battlefield . . . a Victory Garden. No vegetables ever tasted so good as those you raise with your own hands. And there's not a Ration Point in a truckload! Dig into the "good earth" — you'll find pleasure in it, and have the double satisfaction of knowing that you and your family are fighting for Victory.

Dear Mr. Robinson,

I get the Times-Virginian regularly and I really enjoy reading it a lot. I like to know what's going on back in my home town. I saw in the paper where the high school was buying enough bonds to buy a Jeep. We soldiers cannot fight without these machines. I am a Jeep driver. I like it fine. If we don't get these Jeeps and other trucks, we are sunk. I am proud to know the school I was a student in, is doing so much towards winning the war. I hope to be home on a furlough soon and hope to see all of my friends. Wishing all the people in dear old Appomattox good luck and happiness,

A Friend,

APPOMATTOX CITIZENS BENEFIT FROM CANCER FUNDS

In 1942, two indigent cancer patients received treatment through the facilities of the Virginia Cancer Foundation. Others can receive similar treatment upon request.

Cancer is the second greatest cause of death in the United States today and the Cancer Foundation has many full time workers, devoting their talents to research for cures and to treatment of indigent victims.

Paramount in importance is the educational aspect of this work. Many cases can be avoided if early symptoms are recognized and treated immediately. During April, many informative pamphlets will be distributed and the month's work will be climaxed with a drive for contributions to support the cause.

Persons delegated to receive donations will be named in a subsequent issue of this paper and the public is urged to think of this work and be prepared to have

FARMERS IN AAA TO REPORT OWN 1943 PERFORMANCE

In step with wartime's demand for greater personal responsibility, farmers this year will report their own performance under the agricultural conservation program, says the state committee of the Agricultural Adjustment Agency.

Last year, reporters employed by local Agricultural Conservation associations determined performance on farms.

"Through the new system we expect to save hours, tires and gasoline, since it will not be necessary for an AAA representative to visit all farms," the committee said. Farmers will report the acreages of war crops and special crops and the extent of production practices carried out on their farms.

Two Panels Are Added

Calvin H. Robinson, chairman of the Appomattox War Price and Ration Board, today announced that two new panels had been added to the board, under a new set-up aimed to divide the volunteer work of board members.

The following have been appointed as a price control panel: W. E. Hancock, F. C. Dresser and J. S. Kinney.

The following have been appointed as a consumer relations panel: Mrs. B. G. Anderson, Mrs. George Collins and Mrs. Ruby Clarke.

Mr. Robinson also announced the appointment of R. W. Stanley as volunteer assistant in the rationing set-up for industrial and institutional users.

The Ration Board has found it necessary to have daily instead of weekly meetings in order to handle the growing volume of business.

A joint meeting of all panels of the board is held each Friday at 2 P. M. The Ration Board meets daily at 11 A. M.

TOTAL	

The Appomattox quota for the big April Second War Loan Drive is: $95,300. This is by far the biggest quota Appomattox has had in this war.

R. L. Burke, president of the Bank of Appomattox, has been appointed chairman of the Appomattox County War Finance Committee for the Second War Loan Campaign, by Hugh Leach, president of the Fifth Federal Reserve Bank, Richmond, and chairman of the committee for the Fifth District

The drive, which has a national quota of 13 billion dollars, will open April 12, and Mr. Burke has completed his county organization in preparation for a canvas that will reach every man, woman and child, asking them to invest in Government securities to help win the war.

"Virginia's quota for investors other than commercial banks is $75,000,000, and I am counting on Appomattox County to do its share," Mr. Burke said. "The April Campaign will be an all-out drive to reach every type of investor, from the largest corporation to the smallest individual. Anyone with as much as $18.75 in available funds in currency or on deposit at a bank is a prospective bond purchaser.

"Our forces are now in the attack and we must support them with our dollars. We must arm women throughout the world with machines that cannot be stopped. The slogan of the approaching drive tells the story, 'They give their lives; you lend your money.' Every appeal to the American people in this war has brought a willing and patriotic response. This Second War Loan is such a call.'

Forces of the Victory Fund Committee and War Savings Staffs have combined here and throughout the nation to put over the drive, which is the biggest financing campaign ever attempted by any Government or private organization. There will be numerous Government issues in the "basket" of the volunteer salesmen....the familiar E, F, and G bonds, Series C tax notes, 2 1-2 per cent Treasury Bonds of 1950-52; 7-8 per cent Treasury Certificates of Indebtedness, Series B-1944.

WAAC Week Is Announced

WAAC Week has been designated throughout the Third Service Command by Major General Milton A. Reckord, Commanding General of this area, Colgate W. Darden, Governor of Virginia, and C. S. McDearmon, mayor of the town of Appomattox, as of April 4 through April 10, Mrs. Joel W. Flood, chairman of the Appomattox County WAAC Recruiting Committee, said today.

The primary purpose of the observance of this week is to inform the public of the Women's Army Auxiliary Corps, its purpose, its organization and the opportunities offered the women of the nation to serve their country in this vital component of the Army.

The WAAC's were organized to take the places of men in noncombatant positions, and to release them for front-line duty. There is a wide variety of vocational trades open to members of the Corps when they have finished their short period of basic training, and many girls will find themselves much better qualified for more important and better paying jobs upon their return to civilian status.

Members of the WAAC will have an equal opportunity to compete for appointment and attendance at an officer candidate school. All officer candidates are now selected from the ranks of enrolled members.

The present quota is 150,000 women. More applicants are needed to reach the goal. Every woman between the age of 21 and 45 who has no children under the age of 14 or no dependents is eligible to apply.

Any woman interested in making application should get in touch with Mrs. Flood, or some member of this committee, which is composed of Mrs. J. Raymond Lawson, Mrs. C. H. Robinson, Mrs. Barry H. Dabl, Mrs. Jerry A. Burke, Mrs. E. A. Powers, Mrs. C. G. O'Brien, Mrs. R. D. Marks, Mrs. Ryland Mann, Miss Mary Trent, Mrs. R. G. Anderson and Miss Flora Belle Williams.

ANNOUNCE ADVANCED FIRST AID CLASS
